

Airdrie & Rocky View A Legacy Photo Album

#lovenature
airdrierockyview

Our legacy Photo Album

Message us your Pictures or Paintings
of wild Birds, Flowers or Animals
in Airdrie & Rocky View

We will post the Pics on FB, IG, &
our website to create an archive.
Then we will host a gala event where
you can see some of the pics
on display

Follow us and join in.

Hoehn

The goal is to raise awareness of local Birds, Wildlife, and Flowers.
Teach photography skills and create a conversation about Nature.

The program is to create a Legacy Archive, basically an online photo album to document present wildlife species in Airdrie Rockyview.

We are inviting people to participate by taking pictures or creating a painting of local wild Birds, Animals, Flowers and submitting them to us. We will post them on Facebook, Instagram and on our Website. We will also host a Gala Event in the spring to exhibit most of the Photos. We will also print a poster with the photos. There is no fee to participate.

The Program consists of:

The Online Galleries

Facebook, Instagram and our Website

The Photography Class

We will invite professional photographer Nicole Parker to teach a 2 hour class on basics of Camera use and how to use your cell phone camera for nature photos.

Nicole's Bio is:

My name is Nicole Parker and I'm based in Calgary. I enjoy architecture, portrait and event photography but also love the great outdoors.

After graduating in 2012 from the Southern Alberta Institute of Technology (SAIT) with a diploma in Photojournalism I started working at The Camera Store. I'm currently the Merchandising Manager. I also teach my Basics and Intermediate DSLR/Mirrorless Hands-On Workshops and the Intro to Photography Seminars for TCS.

I'm open to collaborating with you on your next photographic project!

A Nature Walk

The walk will be lead by world class nature photographer Ken Hoehn. We will go to local spots where we can actually take pictures. Finish off with hot chocolate and informal conversation with Ken Hoehn.

A Gala Event

Local Biologists will speak on preserving nature. We will invite Cows and Fish to make a presentation. Along with Multisar, Multiple Species at Risk
